The game has a free version of a puzzle with only 5 levels, and then the game has different versions with different sets of levels. The playable version I used for my review was the free version of the game (currently available on Google Play). The Lite version of the game doesn't have online multiplayer while the paid versions (Pro and EDUCATION Edition) do. There are many ways to play The Name Game which ranges from classic to social (online) modes, and it can be played with your own characters created using the cartoon-like user interface.
